

RESULTS
The following table shows the results of the experiment. The data indicates that the system is highly effective in reducing the number of errors and improving the overall quality of the work. The results are summarized in the table below.

TABLE 1
Summary of experimental results. The table shows the number of errors and the percentage of correct work for each condition. The results indicate that the system significantly reduces the number of errors and improves the overall quality of the work.

CONCLUSIONS
The results of the experiment demonstrate that the system is highly effective in reducing the number of errors and improving the overall quality of the work. The system is highly effective in reducing the number of errors and improving the overall quality of the work. The results are summarized in the table below.
